THEORY GROUP, IIIT HYDERABAD

Coordinator and Moderator

Oct 2022 – Mar 2024

- Led a team of Moderators to conduct and direct weekly seminars on Mathematics, Theoretical Computer Science, Philosophy and Music Theory.
- Organized club logistics and budgets for the year 2023-24.

PROJECTS

FIREFLY | *Project Link* 

Mar 2025

A Multi-agent documentation and code generator using the Language Server Protocol.

ESSAY EVALUATION AS EVIDENCE-NLI

Jan 2026 – May 2026

A novel formulation of the Essay Evaluation task as a variant of NL, and a novel GNN and SSM-based approach evaluated against State-of-the-Art methods.

INDIC MORPHO-SEMANTIC CIRCUITS | *Project Link* 

Aug 2025 – Dec 2025

Extracting circuits from monolingual generative language models using known Mechanistic Interpretability methods, and analysing them with an emphasis on Dependency and Paninian Grammars.

AWARDS AND CONTESTS

2025 HackIIIT, DeccanCTF

2024 Amazon ML Challenge

2022 Dean's Merit List

2021 Training Camps for the IMO and IOL

SKILLS

Programming Python, C/C++, JavaScript, Rust, Lisps

Interests Abstract Algebra, Historical Linguistics, Music Theory, Free Software
